

### **Medium Kit with Serum and Without Growth Factors™ (4Z0-500-S)**

**Product Description:** This medium is formulated with 10% FBS serum and without growth factors. Basal medium contains no added hormones and contains no antibiotics. Bac-Off® (Cat. #4Z0-643) antibiotic solution is recommended for all Cell Systems media. Medium contains no phenol red, which interferes with cell physiology.

Cell Systems media and reagents are sterile, made with WFI and all components are cGMP and ISO Compliant.

**Components:** Kit consists of 500mL Medium, and 10mL Attachment Factor™ (Cat #4Z0-201, extracellular matrix reagent for coating flasks). **For a complete medium, add 5mL CultureBoost™ (4CB-500) or 10mL CultureBoost-R™ (4CB-500-R).**

**Storage:** Immediately refrigerate (2 - 8°C) the medium, and AttachmentFactor™. If the entire 500mL unit of media will not be used within 30 days, supplement the medium with growth factor then aliquot and freeze in smaller units, which must be used within 30 days. Once the unit is supplemented, or any component of the medium kit is opened, the shelf life is 30 days at refrigerated (2 - 8°C) temperatures. Store AttachmentFactor™ at 2 - 8°C between uses.

**Product Use:** 4Z0-500-S is for laboratory research only. It is not approved for human or animal use, or for application in *in vitro* diagnostic procedures.

**Shipping:** All medium and reagents shipped at ambient temperature.

**Instructions for Use:** Spray the outside of all tools/instruments (bottles, tubes, racks, etc.) with ethanol solution before bringing them under the hood. Make sure all work surfaces are disinfected. Spray the outside of your gloves prior to work under the hood.

- Place under hood 500mL media and 5mL CultureBoost™ or 10mL CultureBoost-R™
- Remove shrink wrap and place cap sides down under hood onto ethanol sprayed gauze.
- Pipette or pour growth factor into 500mL media.
- Replace cap on media and refrigerate or use in cell culture. Media is now complete.
